

# [Donor Management System] February 24th, 2022

Last Modified on 03/08/2022 9:40 am EST

## What's New

- "Communication Method Preference Field" Under Contributions Advanced Search has now been exposed. As a charity admin you now have the option to search ( via Contributions>Advanced Search) for the preferred method of communication of your donors. This means you can filter by the communication preference of the donor to issue tax receipts by delivery preference, email or postal mail (please note, this filter will only work *if* the contact has a preferred communication method in their profile).
